

3-Month FEMentorship

WHAT YOU GET:

Strategy Kick-Off Call:

We'll start with a 90-minute one-on-one strategy call to kick off our time together! We will keep our focus on the things you want to accomplish most in the next 90-days and create a custom action plan that works FOR YOU!

1:1 Private Mentorship Calls (1 Monthly)

We'll meet 1:1 for an hour a month for three months. We'll do a gut check, talk about what you need to do next to move the needle, and brainstorm any new ideas you have. This is YOUR time - use it accordingly!

Group Voxer Support

We will have a Voxer group chat where you can send voice memos, text messages, pictures, videos...anything that helps keep communication open and going for the group. This will be the place to go if you need to hash anything out between group meet-ups. I am VERY active in the group chat and love answering the group's questions, holding everyone accountable, and (my favorite) celebrate their wins! (Voxer convos happen with group members all the time but I'll be active on M/W/F.)

This is a VIRTUAL close-knit exclusive mentorship program. Seats are typically filled by invitation-only.

About the Founder of FEMastermind

Hey there! I'm Cassie Potts - business coach and mentor for female entrepreneurs. As the Founder & CEO of FEMastermind, (Female Entrepreneur Mastermind) I have a passion for helping ambitious women business owners make true connections and create a support system that is the catalyst of their business success.

I'm a mom of three wonderful little future lady leaders. I'm married to an Australian. I'm a house plant collector, a huge Dave Matthews fan, and with the help of my Nespresso machine - I've perfected the at-home fancy latte.

Some background...

For nearly eight years I worked alongside the best of the best in business coaching at a consulting firm called The Great Game of Business. The people there (colleagues and clients) opened my eyes to the amazing opportunities of *entrepreneurship* - an idea I had always thought "wasn't for me".

Now, not only do I run my own coaching business teaching lady business owners how to develop strong business foundations, but I also created an entire community of like-minded female entrepreneurs who learn from, teach, and support each other every day.

My clients and I spend our time focusing on topics like business visioning, strategic planning, business financials, content marketing, product suite creation, and developing strong revenue and profit goals.
